

CUSTOMER SERVICE

Global provides fast, responsive supply & service solutions. Our highly experienced sales/service teams do what it takes to ensure and guarantee you have access to parts, components, and ingenuity when and where you need it, anywhere in the world.

INVENTORY

Global purchases surplus aircraft parts inventory. Send us your listing of surplus and we will review and come back to you with reasonable offers for your material. Let us turn your excess stock into capital!

CONSIGNMENT

Our consignment program offers aviation entities worldwide the most cost effective and efficient way to market their surplus material. We understand the importance of reducing our customers' investment in inventory which frees up cash flow. We also specialize in tearing down/selling off unused/surplus aircraft & helicopters.
